SUSTAINABILITY WEEK
GULF UNIVERSITY, BAHRAIN

15th -19th November 2025

**SPONSORSHIP
PACKAGES**

Event Brief Description

Gulf University – Bahrain is proud to present the second edition of Sustainability Week, a dynamic initiative dedicated to promoting sustainable practices aligned with the United Nations' 17 Sustainable Development Goals (SDGs).

This year's edition, themed “Co-Innovating, Leading, Sustaining...”, embraces a broader, collaborative approach at the institutional level, bringing together Gulf University and its partner institutions across the GCC.

The event actively engages students, faculty, staff, professional bodies, government entities, industry experts, researchers, and community members in a wide range of activities aimed at strengthening environmental, social, and economic sustainability. Over the course of five days, Sustainability Week will feature impactful activities including discussions, workshops, hands-on experiences, and competitions — all designed to inspire innovative sustainability-driven projects, foster meaningful collaboration among academia, industry, and NGOs, and support community engagement in sustainable action.

Key Objectives:

- Raise awareness about Environmental, Social, and Governance (ESG) principles and the United Nations' 17 Sustainable Development Goals (SDGs).
- Promote collaboration among government entities, industries, academia, and stakeholders from diverse communities.
- Share best practices in sustainability across sectors.
- Create an experiential platform for Bahraini youth to actively engage with and learn about the importance of sustainability.
- Measure and monitor Gulf University's institutional progress in achieving the UN's 17 SDGs.
- Motivate and empower organizations and individuals to adopt lifelong sustainable practices for a better future.

Strategic Goals of Sustainability Week

1. Raise awareness and educate the community about the importance of sustainability — both for the environment and for personal well-being.
2. Engage government entities, industries, academic institutions, and community leaders to foster collaboration through dialogue, knowledge-sharing, conferences, workshops, and exhibitions.
3. Promote sustainable practices such as water and energy conservation, waste reduction, recycling, responsible consumption, and e-transportation.
4. Encourage sustainable choices among Bahraini youth by inspiring them to reflect on their consumption habits and shift toward environmentally friendly lifestyles and behaviors.
5. Track key sustainability indicators and evaluate outcomes to identify areas for improvement, ensuring that initiatives, actions, and efforts remain impactful and aligned with long-term sustainability goals.

SPONSORSHIP B E N E F I T S

STRATEGIC **BD 1,500/-**
